

2-fiber 8-electric convergence switch

Overview

This managed switch comes with Ethernet TCP/IP protocol. It comes with 8 copper cable transmission ports and 2 ports for multi-mode fiber optic. It provides simple and complex connectivity for multiple Ethernet device, network management, enhanced cyber security and more advanced switching. An 8-optical and 2-electrical all-GIGABit fiber aggregation switch provides eight 1. 25G cascading optical ports and two 10/100/1000M adaptive RJ45 ports. The design of 8 gigabit optical ports +2 gigabit electrical ports can not only provide point-to-point networking mode, but also provide.
