

40G Core Switch from a Swedish Manufacturer

AI Overview

Currently, there is no widely recognized Swedish manufacturer offering 40G core switches; leading options come from global vendors like Arista, Edgecore, FS, and Nivetti.

Global 40G Core Switch Options

- **Arista Networks:** Offers high-performance modular switches such as the 7800R4 and 7800R3 series, supporting up to 460 Tbps throughput, 400GbE/100GbE/40GbE ports, and advanced features like MACsec, EVPN-VXLAN, and programmable EOS software for cloud and data center environments . These switches are ideal for large-scale AI/ML clusters and universal spine deployments.
- **Edgecore Networks:** Provides 40G TOR (Top-of-Rack) and spine switches designed for hyperscale cloud operators, emphasizing scalability, reliability, and energy efficiency . Edgecore switches support high-density 40G QSFP+ ports and integrate with SDN and automation frameworks.
- **FS (FS Deutschland):** Offers L3 managed 40G switches such as the S8550-6Q2C (6 x 40Gb QSFP+, 2 x 100Gb QSFP28) and S8550-16Q8C (16 x 40Gb QSFP+, 8 x 100Gb QSFP28) with features like EVPN-VXLAN, MLAG, BGP, OSPF, MPLS, and MACsec . These switches are suitable for enterprise core networks and medium-scale data centers.
