

6-port fiber optic interface of 10 Gigabit switch

Overview

6 Port 10G: 4 x 10Gbps ethernet ports and 2 x 10Gbps SFP+ slots, enable high-bandwidth connected, every port auto-adaptive 10G/5G/2.5G/1000M/100M, support wider rate range. Automatically adapts to different rate class devices. The Cisco ® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications. Web Managed Switch: The management interface of the switch via web. VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously. We offer solutions that provide seamless transmission and conversion. 10 Gigabit SFP switches proudly manufactured in the USA by Versitron are available in 28, 36, and 52 port sizes with managed configuration capability. Each 10 gig SFP switch has 4x1G/10G SFP/SFP+ ports, ideal for efficient fiber aggregation and high-density fiber connectivity solutions.
