

A modular network cabinet

Overview

They provide a secure and efficient housing for both active and passive components such as servers, switches, data cables, patch panels, and UPS systems. A network cabinet will offer the same storage capability but be suitable for higher cabling densities. When selecting a cabinet, it is critical to choose one that can adapt to. Today, network cabinets and enclosures are a central part of every IT infrastructure, driven by the rapidly increasing number of network interfaces. Server rooms with low ceilings, sections or ceilings at different heights. We have the experience and competence to solve different types of cooling. The EC is designed to easily grow with your network's 19" and 23" rack-mount equipment, as needed. ICEcube's unique design allows us to achieve NEMA Type 4, 4X, and IP66 in a modular Telecom & Network cabinet.
