

Austrian cable tray prices and brands

AI Overview

Cable tray prices in Austria vary depending on material, type, and supplier, typically ranging from budget-friendly options to higher-end industrial-grade systems.

Price Overview

In Austria, cable trays are generally considered cost-effective solutions for organizing electrical and data cables, with prices influenced by material, design, and load capacity . Common materials include:

- Steel (galvanized or stainless): Durable and suitable for heavy-duty industrial applications.
- Aluminum: Lightweight, corrosion-resistant, and easier to install.
- Fiber-Reinforced Plastic (FRP): Fire-resistant and ideal for specialized environments . Typical B2B prices for professional-grade cable trays can range from €0.80 to over €70 per unit, depending on size, material, and bulk purchase agreements . For smaller-scale or consumer purchases, prices may be slightly higher per unit but include convenience and shipping .

Types and Cost Factors

- Ladder trays: Feature cross-members for heavy power cables; generally more expensive due to load-bearing capacity.
- Perforated trays: Offer ventilation and flexibility; moderately priced.
