

Barbados FOB price large-diameter fiber optic cable 6 cores

AI Overview

The estimated FOB price for a 6-core single-mode fiber optic cable ranges from \$0.25 to \$1.50 per foot, depending on cable construction, diameter, and supplier.

Price Estimate

For 6-core single-mode fiber optic cables with a large outer diameter (around 5.8 mm or higher), typical material costs are:

- Wholesale bulk purchase: \$0.09 to \$1.52 per foot, depending on fiber type, jacket, and reinforcement layers .
- Retail or smaller orders: \$1 to \$6 per foot, especially for pre-terminated or armored cables . Given that large-diameter cables often include armoring, FRP reinforcement, and outdoor-rated jackets, the FOB price for shipment to Barbados would likely fall in the \$0.50 to \$1.50 per foot range for standard single-mode 6-core cables .

Factors Affecting FOB Pricing

- Cable Type: Single-mode cables are generally less expensive per foot than multimode, but require precise manufacturing for long-distance transmission .
- Construction: Armored or outdoor-rated cables with FRP and yarn reinforcement increase material costs .
- Quantity: Bulk orders reduce per-foot costs; small orders or pre-terminated assemblies increase costs .
