

Base station communication tower companies

Overview

In total, the 10 largest owners and operators of cellular towers – including American Tower, Indus Towers, Summit Digital, Cellnex, BSNL, edotco, Vantage Towers, Reliance Infratel, GD Towers, and Crown Castle – operate 58% of the 1.7 million sites held by the broader top 100. This listing features 18 telecommunication tower companies that vary in size, location, and specialization. From major players like Tawal and ATC Nigeria to smaller entities like Towercom in Ireland, each firm has its unique strengths. These cell towers provide mobile communications coverage and connectivity primarily for wireless carriers while also supporting the needs of television & radio. Telecom operators deploy cellular towers to provide mobile and internet services to subscribers worldwide. In 5G NR (New Radio) technology, the base station is referred to as gNodeB or gNb. It enables wireless transmission of data, voice, and multimedia services by managing the radio.
