

Belgian Domain Fiber Optic Communication

Overview

Status of the roll-out of Fiber To The Home (FTTH) optical fibre networks on the Belgian territory as communicated by the operators. Cell signal coverage maps provided by operators. Illustration picture shows the installation of optical fiber in a residential area in Ghent, Tuesday 08 February 2022. The company is investing billions to connect at least 70. The BIPT publishes a fibre map showing FTTH roll-out. These data include the zones where the operators deployed an FTTH network or intend to do it in the near future. Proximus FTTH/B offers symmetric speeds up to 8. An optical fibre is a very thin glass filament (125 micrometre, about as thin as human hair) with a plastic jacket.
