

British Spectrometer Manufacturer

Overview

19 Spectrometer manufacturers listed. You can narrow down the list of manufacturers based on their location and capabilities, browse their product catalogs, view their profiles, and send. 19 Spectrometer manufacturers listed. The leading. The world's leading metrology company Whether engineers, scientists, manufacturers, companies, research institutes or authorities: When it comes to optimal measurement technology, experts rely on instruments and solutions from Agilent. Agilent delivers measurement systems that help make our world. Founded in 1971, Edinburgh Instruments sets the standard in innovative molecular spectroscopy. Innovative Over the years we have continually diversified and developed new and innovative products, winning many. High performance Fourier transform infrared spectrometers suitable for a number of applications The first and only 5 channel flame photometer range with simultaneous detection and display of all 5 elements Developed for unique direct mercury determination in complex organic samples such as crude. Manufacturer of ICP-OES and other analytical instruments. Our Head Office is based near Leicester in the heart of. The ICP5100DV offers EXCEPTIONAL Response from 165-900nm with enhanced performance between 670 and 900nm The compact NV200 Nano Volume Spectrophotometer, typically using 1 - 2µl for a measurement, is the perfect solution for DNA/RNA and Protein Analysis. The Xenon Light source, combined with a CCD.
