

Brunei 12-core optical distribution box

Overview

This ftth box terminates up to 2 fiber optic cables, offers space for splitters and up to 12 fusions, allocates 8 pcs of SC adapters with 1x8 PLC splitter module and working under both indoor and outdoor environments. It is a perfect cost-effective solution-provider in the. The splitter termination box is suitable for fiber terminal point to complete connection, distribution and scheduling between perimeter fiber cables and terminal equipment, especially suitable for mini-network terminal distribution. What is. 12 core optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It is a necessary equipment in network transmission.
