

Chilean SD-WAN device 10G

AI Overview

Top SD-WAN devices in Chile with 10G throughput include QNAP QHora-301W, Cisco Meraki MX95-HW, and Versa Networks CSG appliances.

QNAP QHora-301W

The QHora-301W is a high-performance SD-WAN router supporting dual 10GbE ports and Wi-Fi 6 connectivity. It features QuWAN SD-WAN technology, which automatically establishes secure mesh VPNs across multiple sites, making it suitable for multi-location deployments. The device supports up to 3600 Mb/s Wi-Fi transfer speeds, multiple VLANs, and flexible LAN/WAN configurations. Its cloud-managed interface simplifies network administration, and it is considered cost-effective for small to medium enterprises seeking high-speed SD-WAN solutions in Chile .

Cisco Meraki MX95-HW

The MX95-HW is a cloud-managed SD-WAN appliance designed for enterprise networks requiring 10 Gbps throughput. It includes 2x 10G SFP ports and built-in security features with ACE technology, providing robust threat management without additional licensing costs. The MX95-HW supports secure remote access, optimized cloud connectivity, and real-time monitoring, making it ideal for businesses with high data transfer needs and distributed teams. It is available for purchase in Chile through platforms like Ubuy .
