

Costa Rica Standard Distribution Box Model

AI Overview

In Costa Rica, standard distribution boxes typically include flush-fit ABS plastic boxes with capacities ranging from 4 to 36 modules, widely used for residential and commercial electrical installations.

Common Types and Specifications

Flush-Fit Distribution Boxes:

- Manufactured from halogen-free ABS plastic in white (RAL 9003) for base, frame, and window .
 - Available in capacities of 4, 8, 12, 24, and 36 modules, accommodating different circuit requirements .
 - Feature opaque windows for safety and aesthetic integration into walls.
 - Designed for residential and light commercial use, providing modular flexibility for breakers and electrical components.
- #### Steel Outlet Boxes:
- Some models are made of steel, suitable for more robust installations or commercial applications .
 - UL-listed versions are available for compliance with international safety standards, often tailored for the Costa Rican market .
