

Denmark optical cable sheath recycling granule manufacturer

Overview

We are the Nordic market leader within recycling of complex cables and transformers, through the brand Zirq Cables. Our production sites in Norway and Denmark can boast with state-of-the-art technology, and with our lean production processes, we are both future-fit and one of Europe's most modern. FiberMAN specializes in network solutions, including fiber optic cable installations and splicing, with a focus on delivering high-quality infrastructure for various sectors like telecom and data centers. Their expertise and experience since 2005 ensure reliable and effective network systems. To develop and manufacture recycling and sorting systems that take care of the environment, improve people's quality of life and health through meaningful innovation, and the sustainable use of our planet's limited resources. What does a sustainable future mean to us?

Bollegraaf and Lubo are world. Turn waste cables into valuable raw materials with our high-performance cable granulation systems. Designed to efficiently separate copper or aluminium from plastic insulation, our cable granulation plants provide a cost-effective and environmentally friendly solution for recycling electrical. Francisco Alberich S.

Article Content

Can You Recycle Fiber Optic Cable? (And Various

Even when recycling became a major option, it was still relatively impossible to recycle a fiber optic cable. That was a challenge because of the complexity of its

Danish plastic waste sorting facility opens with annual

Quantafuel and Eurazeo's ReSource Denmark, the country's "largest and most technologically advanced" plastic sorting facility, has opened its doors;

New manufacture optical fiber cable granulator recycling

2. Easy Operation: This type of waste optical fiber granulator recycling machine needs no water during the whole process. What you need to

Commissioning of the largest LWP Sorting Plant in

The new plant in Esbjerg, ReSource Denmark, is designed for the mechanical treatment of a total of 160,000 tonnes of LWP per year. The material

51 companies for Fiber Optic Cable Manufacturing in Denmark

Discover all relevant Fiber Optic Cable Manufacturing Companies in Denmark, including FiberMAN A/S and SolidAI - Condutores Eléctricos S.A.

Cable recycling: Sustainability and disposal of materials

Explore our end-of-life guide, outlining sustainable solutions for reusing, disposing of and recycling cables, materials and packaging.

Cable Granulation Plants

Designed to efficiently separate copper or aluminium from plastic insulation, our cable granulation plants provide a cost-effective and environmentally friendly

Recycling

There is simply no alternative to using recycled raw materials. We process all the cables delivered to our business according to type and produce high quality

Recycling

We recycle a wide range of metal-containing scrap materials, including brass, turnings and residues such as dross, sludge, hydroxide, dust, incinerator slag,

NG Nordic, previously Zirq Solutions

Cable Recycling We are a full range cable recycler - from household cables to high voltage cables, ground cables, oil filled sea cables, and cable production scrap

NG Nordic, previously Zirq Solutions

Cables We are the Nordic market leader within recycling of complex cables and transformers, through the brand Zirq Cables. Our

ReSource Denmark

ReSource Denmark – Anlæg til plastiksortering Opførelse af stort
plastsorteringsanlæg i Esbjerg for Resource Denmark (joint venture mellem

Top Fiber Optic Cable Manufacturers in Denmark

Fibertech specializes in telecommunications, focusing on fiber optic cable installation and project management for fiber networks. They provide comprehensive services, including the installation of

Denmark's first large-scale plastic sorting plant

As Denmark's first large-scale plastic sorting facility, we work to transform plastic waste into a valuable resource and ensure that plastic becomes part of the

Stena Recycling – It starts here!

Stena Recycling er en af Europas førende industrielle genanvendelsesvirksomheder og en cirkulær partner for vore kunder. Sammen arbejder vi for en bæredygtig

Cable Recycling Plant 99.7% Pure Copper| For Rec

One of our experts will contact you to arrange a free consultation, a visit to a company using a FOR REC shredding plant, or a no-obligation

Cable Sheath Shredding: Unlocking the Value of Recyclable Plastics

When it comes to processing cable sheaths for recycling, single-shaft shredders have become the preferred choice for many recycling facilities due to their superior efficiency, lower

Freedom to process different types of scrap in one plant

In 2006, Francisco Alberich acquired a specially designed combi plant for cable recycling, aluminium recycling, and electronics recycling. The Super Chopper can process cable at 3-8 tonnes/

OFS Sells Manufacturing Towers and Facilities for Fiber

Heraeus Comvance is a leading global manufacturer of quartz glass for fiber optic applications. Holly Hulse, President and CEO of OFS, explained,

OFS Denmark

OFS Denmark | 777 følgere på LinkedIn. OFS is a world-leading innovator, manufacturer and provider of infrastructure solutions for communication networks and specialty fiber optic products. Our Furukawa

NG Nordic, previously Zirq Solutions

We are one of the largest Nordic producers and suppliers of recycled low-carbon copper. We are the leading Nordic cable recycler supplying European industry with low-carbon metals to green projects.

Anlægget

Anlægget Danmarks største sorteringsanlæg for plastaffald Hos ReSource DENmark driver vi landets største og mest avancerede anlæg til sortering af plastaffald,

Fiber Optic Cable Recycling and Sustainability

Key to a sustainable telecommunications industry, fiber optic cable recycling and innovative practices are vital for reducing waste and minimizing

Cable Recycling | Australian Cablemakers Association

Other cables may include polymers for insulation and sheath such as polyethylene, polypropylene and rubber or modified versions of these materials to provide certain features to the cable such as fire

Plastic granules production

VEPLASTIC has a tradition of 40 years in the production of plastic granules. The plastic in the form of granules is suited to industrial processes such as injection molding and extrusion of profiles, films

Denmark inaugurates first large-scale plastic waste

05 Jun 2024 --- ReSource Denmark is launching a new waste sorting and recycling facility located near key transport links, which is poised to process 160,000
