

Detailed Price List for Explosion-proof Low-voltage Distribution Boxes

AI Overview

Explosion-proof low-voltage distribution boxes are available with IP66 protection, stainless steel or carbon steel construction, and ATEX/IECEX certification, with pricing provided upon direct inquiry from manufacturers.

Key Features and Specifications

- **Protection and Certification:** Most boxes are rated IP66, ensuring dust-tight and water-resistant performance, and certified Ex d IIB/IIC T4/T6 Gb for hazardous areas, compliant with IECEx and ATEX standards .
- **Materials:** Options include robust carbon steel or 316 stainless steel, providing corrosion resistance and durability in harsh industrial environments .
- **Voltage and Current Ratings:** Low-voltage boxes typically support 220V-380V systems, with branch circuits ranging from 6A to 95A and main switches up to 180A .
- **Customization:** Manufacturers offer OEM/ODM services, allowing customization of size, internal components, appearance, and labeling to meet project-specific requirements .
- **Applications:** Widely used in oil refineries, chemical plants, mining, pharmaceuticals, power plants, and marine industries where flammable gases, vapors, or dust are present .

Pricing and Supplier Information

- Pricing is not fixed online and depends on size, material, internal configuration, and customization.
