

Distribution Box Configuration Table and Prices

AI Overview

Distribution box prices vary widely based on type, material, capacity, and features, ranging from \$10 for basic residential units to over \$2,000 for industrial or smart systems.

Price Overview

- **Residential Distribution Boxes:** Typically small, single-phase units for domestic use, priced between \$10–\$25 for plastic enclosures and around \$40 for steel boxes with higher durability and protection ratings .
- **Industrial Distribution Boxes:** Larger, three-phase units with higher load capacity, often made of steel or aluminum alloy, priced from \$200 to \$2,000+, depending on internal components like MCCBs, surge protectors, and busbars .
- **Explosion-Proof Boxes:** Designed for hazardous environments, these are more expensive due to specialized construction and safety certifications .
- **Smart Distribution Boxes:** Integrated with sensors, communication modules, and remote monitoring capabilities, these units command premium pricing due to advanced energy management features . Material affects cost significantly: Aluminum alloy > Steel plate > Plastic, and weather-resistant or IP65-rated enclosures carry higher prices .

Configuration Considerations

Distribution boxes are configured based on voltage rating, amperage capacity, and number of circuits. Common configurations include:
