

Explosion-proof electrical panel of level 3 distribution box

Overview

The enclosures are certified Ex d IIB+H2 and Ex tb as well as "explosion-proof". They are available in many sizes, a wide range of operating elements and monitoring functions can be integrated. * Rated current: 1500A * Steel pipe or Cable. HEXLON control equipment is engineered for power distribution, circuit regulation, switching, protection and on-site operation within hazardous classified locations. It delivers safe, stable performance in environments containing combustible gases, vapors, dust, textile fibers and combustible. These are available in a range of materials including Stainless Steel, GRP & Sheet Steel from IP42 (Indoor) to IP 66 (Outdoor) Applications. Crouse-Hinds series AGP17 ATEX and IECEx explosion-protected distribution boards and control assembly are designed for MCB distribution of lighting circuits, heating circuits, socket distribution and control circuits in Zone 1, 2, 21 and 22 hazardous areas. The AGP17 is ideal for areas where.
