

Fiber optic fusion sleeve

Overview

A fusion splice protection sleeve is built from three layers that do three jobs: Cross-linked polyolefin that shrinks tight when heated. Hot-melt EVA adhesive that melts and seals out moisture. 0mm;) Weight:75g * 6; Material: Polyolefin, Stainless Steel. Single holed (preshrunk)ends eliminates improper fiber threading. Leviton Fusion Fiber Optic Splice Sleeves, available in standard and slim styles, are designed with a stainless-steel strength member, polyolefin copolymer inner tube, and polyolefin outer tube. Through these courses, you will gain an understanding in fiber optic communications, installations, testing procedure with necessity equipment.
