

Fiber optic link adapter

Overview

A fiber optic adapter (or fiber coupler) is a passive component used to join and align two optical connectors. It plays a key role in maintaining core-to-core alignment, allowing optical signals to pass through with minimal insertion loss and stable performance. This guide covers adapter types, selection criteria, cleaning tips, FAQs, and B2B customization options to help businesses build reliable and scalable fiber networks. More. Seamlessly integrate multimode or singlemode connections with our compact SC simplex Fiber adapter module. Reliable performance. As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of optical solutions from connectors, adapters and cables to backplanes and high-density interconnects.
