

Guatemalan Low-Voltage Complete Equipment Custom Manufacturer

AI Overview

Prestelectro, PROMELEC, INSE Internacional, and Zetrak Guatemala are key providers of low-voltage electrical equipment in Guatemala, offering manufacturing, distribution, and technical support.

Key Manufacturers and Distributors

Prestelectro specializes in electrical solutions and materials for low-voltage systems, serving industrial, commercial, and residential projects. They distribute European and American brands, provide technical support, and ensure fast delivery within Guatemala and El Salvador. PROMELEC, founded in 1992, focuses on low, medium, and high-voltage electrical equipment. They provide importation, distribution, and commercialization of industrial electrical materials, emphasizing recognized brands, maintenance services, and personalized customer support. INSE Internacional S.A. supplies low, medium, and high-voltage materials for industrial and infrastructure projects. They offer certified products, technical consulting, and project support from planning to execution, ensuring compliance with safety and regulatory standards. Zetrak Guatemala operates a local production plant for low and medium-voltage transformers, including dry-type, pedestal, and substation units up to 7000 kVA. They provide engineering solutions, equipment rental, and repair services, leveraging their Mexican parent company's expertise to serve the Central American market.
