

High-density edge data centers in Portugal

Overview

Equinix operates two data centers in Prior Velho (Loures) and has a third planned for 2027. Merlin/Edged is building a 180 MW campus in Castanheira do Ribatejo. Portugal offers electricity at 0.27 in Ireland), 71% renewable energy, and 10. We currently have 45 data centers listed, from 11 markets in Portugal (Portugal). Save the trouble of contacting the providers yourself, check out our Quote Service. Portugal, a country renowned for its picturesque landscapes, rich history, and vibrant culture, is also making significant strides in the digital arena with a burgeoning colocation market that reflects. Microsoft is committing \$10 billion to an AI data hub in Sines on Portugal's Atlantic coast, marking one of its biggest European infrastructure bets. Announced during the Web Summit in Lisbon, the project expands a multi-tenant campus led by Start Campus and Nscale, positioning Portugal as a prime. The UK-based colocation firm will utilize sustainability-linked funding to launch two new data centers with a combined 21 MW of capacity. AtlasEdge, a leading pan-European Edge data centre provider, today announces its entry. The new high-tech data center campus, located in Vila Franca de Xira near Lisbon, will feature a water-free cooling system and ultra-efficient operations designed to meet the needs of generative AI and advanced computing. This project marks a significant milestone in the expansion plans of Merlin.
