

How much does a Sino-European mesh cable tray cost

AI Overview

Wire mesh cable trays from China generally offer lower prices than European counterparts, with factory-direct and OEM options providing additional cost savings.

Chinese Market Pricing

China is the dominant global hub for cable tray manufacturing, supplying approximately 68% of the world market in 2025, with a mature ecosystem for metal fabrication and customization. Typical wire mesh cable tray prices from Chinese manufacturers vary depending on material, size, and customization:

- Standard factory-direct trays: Competitive wholesale pricing is available, often lower than European suppliers due to lower labor and production costs.
- OEM/ODM options: Custom trays designed to specific project requirements may slightly increase cost but allow precise fit and compliance with electrical standards.
- Price range: While exact figures fluctuate, small to medium trays can start from \$10-\$30 per meter for standard steel or galvanized options, with stainless steel or specialized coatings costing more. Chinese suppliers often provide volume discounts, making bulk orders more cost-effective. Leading manufacturers include Shanghai Qionгкаi Industry Co., Ltd. and Changzhou Qiaobang Storage Equipment Co., Ltd., both offering comprehensive price lists and wholesale options.
