

How much does a cable tray cost in Kuwait

AI Overview

Cable tray prices in Kuwait typically range from KD 5 to KD 50 per meter, depending on material, size, and type.

Price Overview

Cable trays in Kuwait are available in various materials including metal (steel, aluminum), FRP (Fiber Reinforced Plastic), and GRP (Glass Reinforced Plastic), each affecting the cost. Standard metal trays for commercial or industrial use generally start around KD 5-10 per meter for basic perforated or ladder trays, while heavy-duty or larger trays can cost KD 20-50 per meter. FRP and GRP trays, which are lightweight, corrosion-resistant, and suitable for chemical or outdoor environments, are usually priced higher due to their specialized manufacturing.

Factors Affecting Price

- **Material:** Steel trays are cheaper than FRP/GRP trays, which are more durable and chemical-resistant.
- **Size and Width:** Wider trays or those with higher load capacity cost more. Common widths range from 100mm to 600mm.
- **Type:** Ladder, perforated, and solid-bottom trays have different prices; ladder trays are often more economical.
- **Fittings and Accessories:** Bends, tees, reducers, and covers add to the total cost.
