

# How much does a main distribution box power distribution box cost

## Overview

Typical per-breaker costs range from \$5 to \$25 for standard units, plus installation labor if add-ons are required. A mini formula note:  $\text{data-formula} = \text{labor\_hours} \times \text{hourly\_rate}$  > Key price variables include amperage, panel type, and wiring complexity. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed. The article outlines cost ranges, per-unit pricing, and practical. When you start looking for a distribution box, you'll quickly realize the price range is wider than a highway. You might find a small plastic unit for the price of a fancy dinner, or an industrial-grade stainless steel beast that costs as much as a compact car. The distribution box cost encompasses not only the initial purchase. Prices to purchase a new panel and professionally install it range from \$850 on the low end to \$4,000 or more for premium service upgrades, with many factors influencing the total project cost.
