

How much does a meter of special optical cable cost

Overview

The price swing usually depends on the fiber count (e., 12-core vs 96-core) and brand. Generic glass is cheap; premium glass (like Corning) costs more but guarantees lower attenuation. You are looking at \$0. Here's a general pricing reference:

Cable Type	Price Range (USD/meter)
Simplex / Duplex Indoor Cable	\$0.

Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Buyers typically pay for fiber optic cable by length, fiber type, and installation complexity. Custom-built cables or niche specifications can lead to higher prices.
