

How to conceal cable tray wiring

Overview

Stick a flat cord protector along the floor or baseboard to conceal wires. If your desk is in the middle of the room, you'll have cords that you need to run to outlets. They keep cables organised, supported, and protected. Covering plug sockets, or outlets, can be safe and. From piping to ghost wire, here are some creative ways to conceal that rats' nest of electrical wires. For years we ran our speaker and entertainment center wires under an area rug. We were renting at the time, so didn't want to damage the walls. But every time I'd sweep, I had to hassle with. Let's get creative and say goodbye to tangled wires and messy desks! With these 15 genius cable concealment hacks, you'll transform your workspace and embrace the tidy, stylish look you've always wanted. Note that said step isn't always a prerequisite as most moulding is already in a shade of white.
