

# Huijue 8-core optical cable model

## AI Overview

The Huijue 8-core optical cable is a versatile single-mode fiber optic cable designed for both indoor and outdoor installations, featuring high durability, armored protection, and efficient transmission up to 10 Gbps over 2 km.

### Key Specifications

Fiber Type: Single-mode (G.652D or G657.A1) ensuring low attenuation and high-speed data transmission up to 10 Gbps over distances up to 2000 meters . Core

Count: 8 cores, suitable for small to medium-scale FTTH (Fiber to the Home) or network access deployments . Cable Structure:

- Outdoor Armored Version: Central loose tube design with steel wire strength members and corrugated steel tape armor for maximum protection .
- Figure-8 Design: Lightweight, flexible, and self-supporting for aerial installations, with integrated steel wire messenger .
- Indoor/Drop Cable: TPU outer jacket for flexibility and ruggedness, easy-peel design for efficient manual wiring . Jacket Material: Options include LSZH (Low Smoke Zero Halogen) for fire safety, PVC, or polyethylene (PE) for outdoor durability . Mechanical Properties:

- Tensile strength  $\geq 1000\text{N}$  with aramid yarn reinforcement .
- Bend resistance suitable for tight installation spaces.
- Water-blocking and anti-leakage features for outdoor use . Installation Types: Indoor wiring, aerial self-supporting, and direct burial depending on the model variant . Performance Features:
