

Inter-cable tray connection plate

Overview

A cable tray joint plate is a metal connector. Think of it as a bridge that creates a continuous pathway for cables. Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and industrial applications. A properly designed and installed cable tray system will provide. The Cope-GLAS Cable Tray System offers a full line of fiberglass accessories to suit any application. Splice plates for system assembly come in six variations designed for specific applications: straight, expansion straight, fixed. Wide joint plate for use in all cable trays and wide span cable trays. 5 now! ✓ OBO - your provider for Cable support systems. In fact, the stainless steel (or rather the chrome) forms a thin, invisible layer of chromium oxide whenever it comes into contact with oxygen: the oxide film. Suitable for all widths and heights of 35, 60 and 100 mm.
