

Large quantities of cable trays available

Overview

Source Wholesale Cable Trays from Verified Manufacturers & Suppliers. Cable tray systems are the perfect solution for running large quantities of power or data cables overhead or under-floor. Also known as baskets, trunking, or cable ladders, these systems are designed to both route and provide support for vital wiring. These systems are designed to carry and route electrical cables, ensuring safe, reliable. Wescosa designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Dammam Saudi Arabia. All trays are manufactured and tested in accordance with the latest NEMA and IEC 61537 Standards. For example, the weight of the CTA-M model can be found on the The formula used to calculate the weight of a cable tray is: $\text{Weight (kg/m)} = \text{Material Density (kg/m}^3\text{)} \times \text{Tray}$.
