

Large-span cable trays are of reliable quality

Overview

Large span cable trays are designed to support heavy cable loads across long distances without intermediate supports. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/BS EN. Long-span cable trays have a larger support span than ordinary cable trays, with a more sophisticated structural design and greater load-bearing capacity. They are not only suitable for the overhead laying of indoor and outdoor cables in industrial and mining enterprises such as petrochemical. Is your cable tray system optimized for safety, dependability, space and cost savings?

Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and.
