

Lebanese Vibration Optical Cable Manufacturing Plant

Overview

Located in the IWA Industrial City in Zahle, Lebanon, our factory is equipped with advanced cable production technology and a fully integrated quality control lab — enabling us to produce cables that meet the highest international standards. Explore the heart of Astro Power Cables — a purpose-built facility designed to deliver quality, scale, and innovation across every meter produced. Offers custom packaging and labeling services to provide branded packaging for our cables. As a prominent cable machine supplier, LINT TOP has been instrumental in providing comprehensive support throughout the entire process, from equipment. Since our early test and measurement development in 2006, MultiLane has evolved into a world-leading provider of full testing ecosystems, from instrumentation to test fixtures to interconnects. Our portfolio of high-speed I/O test solutions encompasses IC and transceiver characterization, Linear. Liban Cables was founded in 1967 by a group of Lebanese industrialists, backed up by the technical assistance of Two international leading firms, Les Cables De Lyon – France & Phelps Dodge USA. Today we are part of a multinational group, Nexans, A global leader in the cable industry linking people.
