

Lebanon DC power supply unit with low noise

Overview

It is an evolution of the previously built low noise power supply. Built with high-quality discrete components, it provides clean, interference-free power to your devices. Made in a black steel housing with integrated IEC socket with switch and fuse. Our AC/DC power supplies also significantly benefit Medical applications needing low leakage current of 40 to 100uA, all with 4KV reinforced insulation. View our products below and. Other functions that power supplies may perform include limiting the current drawn by the load to safe levels, shutting off the current in the event of an electrical fault, power conditioning to prevent electronic noise or voltage surges on the input from reaching the load, power-factor correction. Discover the Best Low Dropout, Ultra Low Noise Voltage Regulators Trusted by Renowned Authorities such as NASA, NIST, and Scientific Labs. Ensure Precision and Reliability in Your Power Supply Solutions, Best Power Source for your HiFi and HiEnd equipment.
