

Madagascar Air-Cooled Switch 1G

Overview

It is a low pressure switch designed specifically for applications ranging from 2 to 60 PSIG. The sensing area is larger than the 8G Series to accommodate low pressure settings and for certain applications that demand tighter actuation and deactuation settings, a narrower dead. Headquartered north of Los Angeles in Chatsworth, California, CCS is a full service company offering complete build to specification design, research and development, 3-D modeling, prototyping, manufacturing, testing, quality control and aftersales support capabilities. The 1G Series is an all. 1g-dynamics has developed close working relations with most major manufacturers and has stock holding of original and OEM recommended spare parts at realistic prices. These range from the general day-to-day service items for shakers and power amplifiers to exchange electronic sub-assemblies and. The Kripal UKW-1GS Weatherproof Switch is a durable outdoor switch designed for reliable performance in wet or dusty environments. Being the most effective goods of our factory,our High-current-slide-switch in Madagascar goods series have already been tested and won us specialist authority. Home » High-temperature-Toggle-switch in Madagascar Qualified High-temperature-Toggle-switch in Madagascar solutions of China supplier for international and nearby trade business enterprise.
