

Mexico Industrial Switch Series Models

AI Overview

Mexico offers a wide range of industrial switch series from manufacturers like WAGO, Extreme Networks, FS.com, Hubbell, and Newark Electronics, featuring managed/unmanaged options, PoE support, and industrial-grade redundancy.

WAGO Industrial Switches

WAGO provides robust industrial Ethernet switches designed for harsh environments, supporting IEEE 802.3, 802.3u, and 802.3ab standards. Key features include redundant power supplies, switchable ring redundancy (Xpress Ring) with recovery times under 20 ms, and comprehensive security functions such as MAC limitation, Port Security, and IEEE 802.1x authentication. Many models support SFP modules for fiber optic connections up to 80 km, allowing flexible copper and fiber combinations for industrial networks .

Extreme Networks ISW Series

The ISW Series from Extreme Networks offers rugged Layer 2 switches suitable for extended temperature ranges and harsh industrial conditions. They provide PoE options up to 90W per port (IEEE 802.3af/at/bt), full redundant ring technology for high availability, and Fabric Attach support for zero-touch edge provisioning in virtualized networks. These switches are ideal for smart cities, utilities, and intelligent transportation systems .

FS.com Industrial Switches

FS.com offers a variety of industrial managed L2+ switches in Mexico, including models like:
