

Modular Data Center Armor

Overview

Armada modular data centers are purpose-built for mission-critical operations. Constructed with continuously welded $\frac{1}{4}$ " steel, these rugged data centers offer RF/HEMP, forced entry, ballistic, and extreme climate protection. Armada has raised a \$230 million Series B round from investors at a \$2 billion valuation and signed a manufacturing deal with Johnson Controls to build modular AI data centers in Arizona. The company's current modular units can be deployed within days and run on local energy sources. They are in. Artificial intelligence has created a new race for computing infrastructure, and a startup called Armada wants to bring AI processing far beyond traditional data centers. With Armada modular data centers you get rapid deployment, versatility, and. OSLO & SAN FRANCISCO, March 23, 2026 - Aker BP and Armada have entered into an agreement to deploy Armada's Galleon modular data center for use in an offshore drilling environment on the Norwegian Continental Shelf. Under the agreement, Armada will deliver a Galleon designed to operate in offshore. Northstar Enterprise + Defense offer solutions with speed, performance and security in mind (Credit: Northstar Enterprise + Defense) Northstar Enterprise + Defence delivers turnkey solutions for AI/ML, enterprise, telecoms, defence and government applications, with a specialised focus on modular. Working with our Vertiv Sales team enables complex designs to be configured to your unique needs. If you are an organization seeking technical guidance on a large project, Vertiv can provide the support you require.

Article Content

Modular Data Centres | Technical Mobile & Modular

Workspace Technology's Modular Data Centres can be erected internally typically within a warehouse or externally to create a standalone Modular Data Centre.

Know The Requirements For Modular Data Centers

Learn about data center design,data center expansion,modular data centers,critical facilities and related trends for building operations success

Azure Modular Datacenter – Mission resiliency for the field

The Azure Modular Datacenter solves traditional challenges for IT solutions in the field, as it can run fully disconnected or switch smoothly from connected to disconnected modes, facilitating

Top 10: Modular Data Centre Companies

The company designs, manufactures and constructs pre-engineered modular units for data centres, SCIFs, emergency operations and critical infrastructure. These solutions are built to

Armada Secures \$230M Series B and Johnson Controls Pact to Scale ...

Discover top-performing stock ideas and upgrade to a portfolio of market leaders with Smart Investor Picks Armada is accelerating its edge AI strategy with a \$230 million oversubscribed Series B round

Top 10: Modular Data Centre Companies

As computing demands surge, modular data centres are redefining how infrastructure is built, scaled and operated. Designed for rapid deployment,

Modular Data Centers: Practical Use Cases for Your

Modular Data Centers: Practical Use Cases for Your Enterprise This booming sector of the data center industry can address the challenges faced by

The Modular Data Center Market: A DCK Guide

With the modular data center market developing in the industry, there has been tremendous innovation and engineering design efforts put into solutions.

Prefabricated Modular Data Center Solutions by MCFI

Prefabricated Modular Data Centers by MCFI Revolutionize your IT infrastructure with our ready-to-deploy prefabricated modular data center solutions for your organization. Our team of experts is

Introducing the Microsoft Azure Modular Datacenter

The Microsoft Azure Modular Datacenter (MDC) is designed to support datacenter scale scenarios for humanitarian aid, disaster response, and

What Is a Modular Data Center? A DCK Guide

The concept of a modular data center solution has eluded definition, if not comprehension. Through the short history of modular solutions and vendor

The Complete Guide to Modular Data Centers: From

The digital world's insatiable demand for compute power and rapid deployment speed is fundamentally changing how we build data centers. The traditional,

Modular Data Center FAQ | Armag Corporation

Armag brings decades of experience in secure, defense-grade modular structures. Our modular data centers are built with rugged construction, physical security,

Modular AWS Data Centers for the Military

Amazon has recently announced modular data centers for remote military operations. Here's what these facilities offer.

Exploring Modular Data Centers: Benefits, Design, And

Understand the benefits and design considerations of modular data centers, including deployment strategies and case studies.

What Is a Modular Data Center? | phoenixNAP IT Glossary

Glossary » M » What Is a Modular Data Center? A modular data center is a portable, pre-engineered facility built from standardized units or

Containerized Modular Data Center Systems | Eaton

Our prefabricated data center solution containing critical infrastructure inside a container or similar enclosure. Built to operate in outdoor environments, these plug-and-play systems offer secure,

Aker BP and Armada Announce Agreement to Deploy Offshore

Aker BP and Armada have entered into an agreement to deploy Armada's Galleon modular data center for use in an offshore drilling environment on the Norwegian continental shelf.

Prefabricated Modular Data Center for Digital Growth

Vertiv MegaMod offers fast deployments and cost-efficient prefabricated modular data centers to meet the demands of data center

What Is a Modular Data Center? | Modular Data Center

Data Center Infrastructure Solutions from Enconnex Enconnex engineers have extensive real-world experience in the design and architecture of

AWS announces AWS Modular Data Center (MDC) for U.S.

AWS MDC makes it easy for DoD agencies to deploy modular data centers managed by AWS in infrastructure-limited locations. AWS MDC is available as a self-contained modular data

Prefabricated modular solutions

However, in contrast, modern modular data centers are conceived, produced, and tested off-site concurrently with site preparation, yielding over 40% time savings

Aker BP and Armada Announce Agreement to Deploy Offshore

Under the agreement, Armada will deliver a Galleon designed to operate in offshore conditions, enabling local processing and analysis of drilling and operational data directly on the rig.

What are Modular Data Centers and How Can They Help?

Given these barriers to data center construction, it's no surprise that some companies are redirecting their resources to install modular data centers.

Enterprise Data Centre Provider Strengthens Cybersecurity

When looking for a partner to bolster its threat detection and response capabilities, Colt DCS turned to Armor to provide a uniform cybersecurity platform across all its multi-national sites;

High-Security Modular Data Centers | Armag Corporation

Armag modular data centers are designed, manufactured and fully integrated at Armag's secured U.S. production facility. They are delivered turnkey, ready for connection to primary power and data

Armada raises \$230M at \$2B valuation to build modular AI data

With \$230M in funding, AI infrastructure startup Armada aims to build deploy-anywhere modular data centers Armada's rise comes as governments and enterprises search for faster ways to

Modular data center builder Armada raises \$230 million

Modular data center builder Armada has raised \$230 million from investors at a valuation of \$2 billion, with BlackRock becoming a new investor.

Modular Data Center Solutions | Dell USA

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks built outside traditional data center constraints.
