

Papua New Guinea Base Station Fiber Optic Cable Maintenance

Overview

Papua New Guinea's DataCo has secured and scheduled a repair vessel for mid-October to carry out repair work on multiple cable breakages in Madang, following last month's earthquake. However the company has warned customers to continue to expect connectivity issues until these cables. Cetelnet is a leading fiber optic contractor Papua New Guinea, delivering expert network design, installation, splicing, and maintenance services for clients across the country. From high-speed internet rollouts in urban centers to connectivity solutions in rural and remote areas, Cetelnet provides. The Coral Sea Cable Company Pty Limited is an Australian registered company, with equal shareholding by The Commonwealth of Australia, PNG DataCo and The Solomon Islands Submarine Cable Company. Yes, You'll Be Covered! High-capacity national bandwidth solutions that connect. Our Engineering Services team provides expert design and planning for high voltage and low voltage transmission lines, as well as distribution line systems.

Article Content

Papua New Guinea: ICT communication breakdown
