

Permanent Bridge Structure in Costa Rica

Overview

A newly expanded five-lane bridge over the Corrogres River on the Lindora bypass is now fully open to traffic, as project officials say it will ease one of the busiest chokepoints between Santa Ana and Lindora west of our capital and which the government is holding up as a model for. A newly expanded five-lane bridge over the Corrogres River on the Lindora bypass is now fully open to traffic, as project officials say it will ease one of the busiest chokepoints between Santa Ana and Lindora west of our capital and which the government is holding up as a model for. San José, Costa Rica — SAN JOSÉ - The National Roadway Council (CONAVI) has officially signed off on the completion of the new Corrogres River bridge in Lindora, a project that transcends its concrete and steel to represent a potential paradigm shift in how Costa Rica develops its public. A newly expanded five-lane bridge over the Corrogres River on the Lindora bypass is now fully open to traffic, as project officials say it will ease one of the busiest chokepoints between Santa Ana and Lindora west of our capital and which the government is holding up as a model for future. For anyone traveling the Costanera Sur highway near Coronado de Osa, single-lane traffic will soon be a thing of the past. After nearly six years of waiting, construction is scheduled to begin in May on a permanent bridge to replace the existing Bailey bridge over the Río Coronado. The original. Photo courtesy of the Ministry of Public Works and Transport (MOPT). The ministry said. Buying or investing in property in Costa Rica's Central Pacific—Jaco, Hermosa, Esterillos, or Los Sueños—usually means one of the most scenic drives in the country. But in 2025 and 2026, infrastructure upgrades, especially around the Tárcoles Bridge, are temporarily affecting travel times.
