

Pre-terminated optical cable with 48 cores

Overview

48 fiber breakout cables reduce the overall cost and clutter associated with large quantities of individual fiber optic patch cables. Each 48 fiber breakout cable contains LC, SC, or ST pre-terminated connectors, as well as Single-mode (OS2) or Multimode (OM1, OM2, OM3, & OM4). Advance Optics's pre-terminated 48 core loose tube assembly is an optical 50/125 OM4 cable pre-fitted with connectors on 2mm ruggedised tails. The terminations. Fibconet's solution tackles these with pre-terminated fiber cables and asymmetric splitters, offering clear advantages: Slash Labor Costs: Dramatically simplifies installation and maintenance, saving significant time and money. Internal within your building or externally connecting 2 or more buildings together. Available from 4-48 core. Connectix have developed a cost effective pre-terminated cabling system called OPAL™ (Optical Pre-Assembled Link) which is completely based around standard networking products. buy pre-terminated LC to SC fiber patch cable, single-mode, harnessed fanout legs, customized cable length, breakout style. The fanout legs are harnessed from 0.
