

Price of 4-core fiber optic cable junction box for Venezuelan local area network

AI Overview

A 4-core fiber optic junction box typically costs between \$5 and \$25 USD, depending on type, material, and supplier.

Price Range and Factors

The cost of a 4-core fiber optic junction box varies based on design, material, and features. Basic indoor wall-mounted boxes made of ABS plastic usually start around \$5-\$10 USD, while more robust outdoor or lockable enclosures with additional splice trays or adapter ports can range from \$15-\$25 USD per unit. Factors influencing price include:

- Material quality: ABS plastic vs. polyamide or metal enclosures.
- Capacity and features: Number of splice trays, adapter types (SC, LC), and cable entry ports.
- Supplier and shipping: International shipping to Venezuela may add significant cost due to import duties, logistics, and currency fluctuations.

Suppliers

- Alibaba offers a wide range of 4-core FTTH junction boxes suitable for LAN and FTTH networks, with options for indoor and outdoor use.
- DirectIndustry lists professional-grade fiber optic junction boxes from brands like HUBER+SUHNER and LAPP, which may be more expensive but provide higher durability and compliance with ISO/IEC standards.
