

Price of Banma Groove Cable Tray

AI Overview

The price of Banma Groove Cable Tray varies widely depending on size, material, and order volume, typically ranging from under \$1 per unit for bulk B2B orders to \$15-\$34 per unit for retail purchases.

Pricing Overview

Banma Groove Cable Trays, like other groove or wire mesh cable trays, are used to organize and support electrical cables in industrial, commercial, and residential settings. Prices depend on factors such as material (steel, aluminum, stainless steel), tray dimensions, and quantity. In general:

- B2C retail prices (small quantities, consumer-focused) range from \$15 to \$34 per tray .
- B2B bulk orders (industrial or construction projects) can be significantly lower, starting around \$0.80 per unit, with higher-end trays exceeding \$76 per unit depending on specifications .

Factors Affecting Price

- Material: Stainless steel trays are more expensive due to corrosion resistance and durability, while aluminum or galvanized steel options are more affordable .
- Size and Load Capacity: Larger trays or those designed for heavy-duty power cables cost more.
- Customization: Banma and other manufacturers offer OEM/ODM services, which can increase cost if custom dimensions or features are required .
