

Price of fireproof cable trays in Qitai

AI Overview

Fireproof cable trays in Qitai typically cost between \$10 and \$50 per meter, depending on material, type, and customization.

Price Range and Factors

The cost of fireproof cable trays varies widely based on material, size, type, and surface finish. Steel trays, which are common and durable, generally range from \$10 to \$30 per meter, while aluminum trays, which are lightweight and corrosion-resistant, can cost \$20 to \$50 per meter. Custom or coated trays, such as those with anti-corrosion paint or stainless steel (304 grade), may be priced higher due to enhanced durability and fireproofing features (ApexTray, Alibaba) .

Material and Type Considerations

- Galvanized steel: Cost-effective and durable, suitable for most industrial applications.
- Stainless steel (304): Fireproof, corrosion-resistant, ideal for high-load or harsh environments.
- Aluminum: Lightweight, rust-proof, but more expensive than steel.
- Plastic or FRP: Budget-friendly, but less suitable for heavy-duty or high-temperature applications . Tray types also affect pricing: ladder trays are more expensive due to higher load capacity, while perforated or wire mesh trays are cheaper and suitable for lighter cables .

Cost-Saving Tips

- Bulk orders: Purchasing in larger quantities can reduce the per-meter cost.
