

Price quote for 1MWh outdoor integrated off-grid power system

Overview

While a standard grid-connected system might run \$15,000-\$20,000, a complete off-grid setup typically ranges from \$45,000-\$65,000 for an average home. This significant price difference reflects the additional components needed when you can't rely on the utility grid as backup. Battery storage represents the largest expense in an off-grid system, often accounting for 30-40% of the total system cost. $2 \text{ US\$} * 2000,000 \text{ Wh} = 400,000 \text{ US\$}$.
