

Qatar Home Electrical Distribution Box Size and Price

AI Overview

Home electrical distribution boxes in Qatar are available in various sizes, materials, and protection ratings, with prices typically ranging from QAR 100 to QAR 600 depending on specifications and supplier.

Types and Materials

Distribution boxes for residential use in Qatar are commonly made from PC/ABS, PVC, or polystyrene, offering high impact resistance, thermal stability, and corrosion-free performance. Some boxes are self-extinguishing and comply with flammability standards like UL 94V-0. Boxes are designed for indoor applications (IP30) or indoor/outdoor use (IP54, with IP67 available on request) depending on the model.

Sizes

Home distribution boxes come in modular and standard sizes, often measured by the number of DIN rail modules they can accommodate. Common configurations include 6, 12, 18, 24, or 36 modules, which can be arranged horizontally or vertically. Larger boxes allow for more circuit breakers and additional electrical components, while smaller boxes are suitable for compact residential setups.

Price Range

- Small boxes (6-12 modules): QAR 100-200
- Medium boxes (18-24 modules): QAR 200-400
