

Ranking of Carrier-Grade Routers

AI Overview

Top carrier-grade routers in 2026 include the HPE HSR6800, Cisco ASR 9000 series, Juniper MX series, Nokia 7750 SR, Huawei NE series, and Ericsson SSR series, recognized for high throughput, low latency, and robust carrier-grade features.

Leading Carrier-Grade Routers

- **HPE HSR6800 Router Series** The HSR6800 is a high-performance, multiservice router designed for data center interconnection, enterprise WAN core, and telecom networks. It supports up to 420 million packets per second (Mpps) forwarding and 2 Tbps switching capacity, with extensive routing, MPLS, multicast, IPv6, and carrier-grade high-availability features. Its modular Comware v7 OS enhances system reliability and introduces advanced features like ADVPN, IRF2, EVI, EAA, and ISSU, making it highly suitable for large-scale carrier networks .
- **Cisco ASR 9000 Series** Cisco's ASR 9000 series is widely deployed in service provider networks, offering high throughput, scalability, and redundancy. It supports advanced MPLS, IPv6, and QoS features, with modular line cards for flexible interface options. The series is optimized for 5G, edge computing, and high-bandwidth applications, making it a top choice for carrier-grade deployments .
- **Juniper MX Series** The Juniper MX series provides carrier-class routing with high reliability and low latency, supporting large-scale MPLS, BGP, and multicast deployments. It features modular hardware, high-density 10GbE/100GbE interfaces, and advanced automation capabilities, suitable for both core and edge network applications .
