

Recommended UAE Cable Tray Type

Overview

Hot-Dip Galvanised (HDG) Steel: The industry standard for most industrial and outdoor projects across the UAE and KSA. The hot-dip process creates a thick, durable zinc coating that provides excellent protection against humidity and atmospheric corrosion. A well-sized system does more than just hold cables—it organizes, supports, and protects them, preventing. Selecting the correct cable tray dimensions is a foundational decision in any electrical installation across the UAE and GCC. Get it right, and you establish a safe, reliable framework. A report shows that. Unigroup offers a line-up of high-performance cable trays, Trunking and Channel Systems for all your cable routing requirements.
