

Rwanda Cable or Fiber Optic Cable

Overview

Three ISPs provide fixed broadband using ADSL or optical fibre. Liquid Telecom began offering fibre to small businesses and homes with the launch of a 100 Mbit/s service in 2015. These guidelines on fiber optic cables underground installation aim at avoiding any damage to existing underground infrastructure such as existing FOC, sewage or water pipes, electrical cables or other telecommunications cables. When this document was at the stage of zer draft, its legal framework had the nature of regulations. RURA decided to redraft it in the form of Guidelines; the change of the legal nature did not affect the content of the document, only the. In Rwanda, Broadband Internet connects rural communities to a bright. Through investments in network infrastructure and online government services, the approach is proving.
