

Supplier of Corrosion-resistant and Rust-proof Cable Trays

Overview

Find reliable anti rust cable tray options with corrosion resistance tested, customizable sizes, and verified suppliers. Stainless steel is special because it solves many common problems for cable management. Designed specifically for challenging environments where traditional materials fail—such as offshore platforms, chemical plants, and wastewater. METAR Brand GRP (Glass Reinforced Plastic) Cable Trays are engineered to provide superior performance in cable management systems, especially in environments where corrosion resistance, electrical insulation, and lightweight construction are paramount. com - the reliable choice for safe, organized, and standards-compliant routing of power, data, and control cables. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore.
