

US Tray-type Cable Tray Quotation

AI Overview

You can request a US Tray cable tray quotation directly from manufacturers like Atkore or via Eaton's RFQ form for made-to-order, NEMA-compliant cable trays.

How to Request a Quotation

Atkore's US Tray offers a wide range of cable trays including wire basket, I-beam, C-channel, and Trof (solid or vented bottom) trays, all built to NEMA standards and UL certified. Their products are made-to-order, allowing customization for width, material, and design requirements. To obtain a quotation, you can contact Atkore directly through their website or sales team, providing your project specifications, tray type, and quantity. Eaton provides a Cable Tray RFQ form where you can submit your request online. You will need to select your country (United States), provide project details, and specify the type of cable tray required. Eaton will then provide a tailored quotation based on your specifications, including pricing, lead times, and shipping options.

Factors Affecting Quotation

- **Tray Type:** Wire basket, ladder, I-beam, C-channel, or Trof trays. Each type has different load capacities and installation requirements.
- **Material:** Options include aluminum, galvanized steel, stainless steel, fiberglass, or PVC-coated trays.
- **Dimensions:** Width, depth, and length of trays affect pricing. Custom sizes may incur additional costs.
- **Quantity:** Bulk orders often receive discounted pricing.
