

What are some manufacturers of optical cable headers in Palau

AI Overview

Palau does not have local manufacturers of optical cable headers; all optical cable equipment is supplied by international companies, primarily NEC Corporation of Japan.

Overview of Optical Cable Infrastructure in Palau

The Belau Submarine Cable Corporation (BSCC), a state-owned enterprise, manages Palau's submarine fiber optic network, including the Palau Cable 1 (PC1) and Palau Cable 2 (PC2) projects . These projects connect Palau to Southeast Asia and the U.S. mainland, providing high-capacity, reliable digital connectivity . BSCC oversees the operation, maintenance, and management of the network but does not manufacture optical components locally .

Equipment Suppliers

All optical cable headers, repeaters, and terminal station equipment for Palau's submarine cables are supplied by NEC Corporation, a Japanese multinational with extensive experience in submarine cable systems . NEC's subsidiary, OCC Corporation, produces submarine optical cables capable of withstanding extreme underwater pressures, and NEC handles the engineering, installation, and testing of the cables . This includes optical wavelength multiplexing systems and terminal equipment necessary for Palau's network.
