

Wholesale Price of Russian Fiberglass Cable Trays

AI Overview

The price of Russian fiberglass cable trays typically ranges from \$10 to \$25 per meter, depending on material, type, and order quantity.

Fiberglass cable trays are valued for their durability, corrosion resistance, and lightweight properties, making them suitable for industrial, commercial, and residential installations. In Russia, manufacturers like PitON offer a variety of fiberglass and composite cable trays, including perforated, solid, ladder, and wire mesh designs, with prices influenced by material type, anti-corrosion treatment, and installation requirements.

Factors Affecting Price

- **Material Type:** Fiberglass trays are more expensive than plastic but cheaper than stainless steel, offering a balance of strength and corrosion resistance.
- **Tray Design:** Ladder trays, solid trays, and wire mesh trays vary in cost; ladder trays generally cost more due to higher material use and load capacity.
- **Surface Treatment:** Anti-corrosion coatings or fireproofing can increase the price. Russian trays often include specialized coatings for industrial environments.
- **Order Quantity:** Bulk orders can reduce the per-meter cost by 20–40%.
- **Installation and Accessories:** Connectors, junctions, and mounting hardware add to the total cost.
